**PUBLICATION PRESENTATION**

**Bond Presentation**

Councilman Payne gave a Power Point presentation on the eight (8) bond issues, which are due to be voted on March 29, 2007. As each proposition was presented and explained, several questions were raised:

- *James Lawrence* asked for clarification regarding the  $-.028$  per \$1,000 of Assessed Value beginning in 2008 as stated in Proposition 1
- Regarding Proposition 4 – Storm Water Control, *a resident* asked if there was a list of areas to be improved and *another resident* asked what the length of the bond. the Department of Environmental Conservation Phase II Permit, which is mandatory.

- A man in the audience asked if developers could be held liable for additional water runoff or having inadequate storm water facilities. Councilman Reynolds explained the Town is looking at current subdivision regulations regarding this matter.
- A man inquired as to the exact cost of the building in Proposition No. 5. Also, Edmund Wiatr had several suggestions regarding the existing police station and asked the Board had considered any other areas to relocate the police department. Chief Philo explained the Town's search over the past few years for new property, renovation of an already existing building or renovation of the present facility. He further explained how crowded the present building is for both Police and Courts and how difficult it is to offer privacy to anyone and at the same time to offer safety to the general public when interviews with prisoners are taking place or Court is in session.
- James Lawrence stated it doesn't make sense to bond for fifteen (15) years for lighting in the Sanger Public Works Garage and the Recreation Center. He questioned the Board regarding the amount of savings the Town would benefit from this particular Proposition.

After the presentation, the Supervisor declared a recess from 7:15 P.M. to 7:28 P.M.
